WORKING EXPERIENCE

SENIOR SOFTWARE ENGINEER
Logixal | BFF | 2023 - Present
- Built scalable frontend decoupled from backend systems (NextJS, ReactJS, NodeJS).
- Streamlined data & logic with backend integration, optimizing performance & SEO.
- Mentored junior devs, fostering growth and best practices
- Contributed to recruitment efforts.

SOFTWARE ENGINEER
Logixal | BedBath&Beyond | 2021 - 2023
- Led team, fostered growth & best practices.
- Migrated monolith to scalable polylithic architecture (NextJS, Micro-FE.)
- Smoother transition from Babel to SWC compiler, optimized performance.
- Developed new NextJS apps, boosted existing app performance.
- Contributed to recruitment efforts.

ASSOCIATE SOFTWARE ENGINEER
Logixal | BedBath&Beyond | 2018 - 2021
- Managed 15k-component React monolith in Agile platform team.
- Spearheaded web performance optimization, NodeJS & Webpack upgrades.
- Upgraded React, implemented Storybook & service workers, Redux.
- Integrated monitoring tools for AMP pages (NewRelic, Quantum Metrics).
- Collaborated with cross-functional teams for efficient project delivery
